- ICoMET 2018 and 2019 ([link](#))
- SIBACOM ([link](#))

Desktop Application:

- School Management System

PUBLICATIONS

A Rough-Fuzzy Model for Early Breast Cancer Detection at Journal of Medical Imaging and Health Informatics: Breast cancer is one of the most widespread life-threatening cancers in the world. The prevailing procedures are costly and time-consuming such as mammograms, biopsy tests, ultrasound, and MRI. So, this study has used Rough-Fuzzy hybrid technique to produce an early breast cancer detection model with 96.59% accuracy. ([link](#)) FYP

Education

BS Computer Science (Sukkur IBA University) 2015-2019

Studied on Sindh Endowment Scholarship

ACADEMIC PROJECTS

Accreditation File System: using PHP, JavaScript, JQuery, Ajax, HTML & Bootstrap
